

TCS:

A web-based enterprise application developed to monitor railway track conditions and manage preventive and corrective maintenance activities. The system enables engineers and operations teams to capture, analyze, and track inspection and maintenance data through intuitive dashboards and reports. Built using Angular with backend API integrations, the application supports role-based access, performance optimization, and scalable data handling, ensuring improved operational efficiency and timely maintenance decisions.

Webclulsion

Learning Management System (LMS) & CMS Development Platform

Developed and enhanced a US-based Learning Management System (LMS) using Angular and React. Implemented user-facing features such as Q&A modules, goal tracking, and course interaction to improve learner engagement. Integrated frontend components with backend APIs and ensured responsive, SEO-friendly UI across devices. Collaborated closely with clients and teams to deliver scalable and user-centric solutions.

Impact:

Web & Hybrid Application Development

Developed fast-loading, cross-browser web applications using HTML, CSS, JavaScript, Webpack, Sass, and Gulp. Built hybrid mobile applications using Cordova and Ionic for rental and service-based platforms. Integrated real-time features using Firebase and Google Maps APIs. Delivered pixel-perfect UI implementations aligned with client designs and requirements.

Winklix:

UI/UX Design & Web Application Development

Designed and developed responsive web interfaces and dashboards using HTML, CSS, and JavaScript. Translated business requirements into intuitive UI/UX designs using Adobe Creative Suite. Integrated frontend components with custom backend APIs and CMS platforms. Delivered user-friendly and scalable web solutions aligned with client expectations.

Results-driven **Front-End / Full Stack Developer** with 8+ years of experience in building scalable, high-performance, and user-centric web applications. Proficient in Angular, React, Next.js, and UI/UX principles with deep understanding of frontend integration with Spring Boot microservices. Adept at performance tuning, cloud-native deployments, and Agile methodologies. Experienced with GitHub Copilot and GenAI tools for fast prototyping and development efficiency. Recognized for delivering maintainable solutions and driving innovation in cross-functional teams.

SKILLS OVERVIEW

- **Technologies:** HTML5, CSS3/SCSS, JavaScript, TypeScript, RxJS, Bootstrap, jQuery, Java, GSAP, Adobe Animate
- **Frameworks & Libraries:** Angular, React, Next.js, NgRx, Express.js, Node.js, Spring Boot, Cordova, WordPress, Magento, Shopify
- **Cloud & Infrastructure:** AWS (EC2, S3, Lambda, RDS, ELK), Docker, Kubernetes
- **Developer Tools & Platforms:** Git, GitHub Copilot, Bitbucket, JIRA, Trello, Rally, Jenkins, SonarQube, BlackDuck, Kibana, Polaris, cPanel
- **Others:** RESTful APIs, Microservices Architecture, GenAI Integration, Firebase, MongoDB, MySQL, Agile/Scrum, CI/CD, Gulp, Webpack

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Excellent communication and stakeholder coordination
- Adaptable and quick learner in fast-paced environments
- Team-oriented with proven leadership in mentoring and collaboration
- Detail-focused and committed to code quality and UI consistency

EXPERIENCE ~8 Yrs

Tata Consultancy Services - IT Analyst

Mar 2022 - Present (Noida)

- Led a team of 13+ frontend developers to deliver enterprise-grade UI systems in collaboration with backend teams.
- Modernized AngularJS modules to Angular 11+ with lazy loading and modular structure, improving maintainability and reducing load time by 40%.
- Enhanced React modules using Hooks, lazy loading and functional components, improving code readability and reusability.
- Engineered scalable components using Angular Material, React Hook and AG Grid for rendering large datasets efficiently.
- Integrated UI with Spring Boot microservices using JWT and OAuth2-based authentication.
- Structured NgRx/Redux based state management, reducing code redundancy by 25% and boosting maintainability.
- Eliminated hardcoded credentials and added sanitization mechanisms to strengthen frontend security.
- Implemented GenAI tools and GitHub Copilot for code scaffolding and unit test generation.
- Maintained high code quality with Jenkins and SonarQube integration in CI/CD pipelines.

VM WebClusion Pvt Ltd - Sr. Web Developer (NO PF)

May 2019 - Mar 2022 (Gurgaon)

- Delivered responsive, SEO-friendly web apps using Angular, React, and custom CMS platforms.

- Improved user retention by **15%** on a US-based LMS platform through new Q&A and goal tracking features.
- Developed a lightweight CMS in PHP + Angular to empower non-technical clients, reducing update effort by **80%**.
- Enhanced web performance with GZIP compression, lazy loading, and modular builds.
- Customized WordPress, Magento, and Shopify to align design and functionality with brand goals.
- Deployed scalable web infrastructure on AWS (EC2, RDS, S3).

Impact Design Solution - Web Designer (NO PF)

Feb 2018 - Apr 2019 (Delhi)

- Developed fast-loading, cross-browser websites using Webpack, Sass, and Gulp.
- Built hybrid apps with Cordova & Ionic across various domains including rental and service platforms.
- Integrated real-time data and maps using Firebase and Google Maps APIs.
- Delivered pixel-accurate designs with HTML, CSS, and JavaScript based on wireframes and client input.

Winklix Internet Pvt Ltd - UI/UX Designer (NO PF)

Apr 2017 - Jan 2018 (Delhi)

- Translated business needs into intuitive UI designs using Adobe Creative Suite.
- Developed responsive dashboards and web pages integrated with custom backend APIs.
- Created CMS systems with real-time content updates using RESTful APIs.

ACHIEVEMENTS

- **2x On-the-Spot Award Winner** at TCS for delivering high-quality UI modules under tight deadlines.
- Successfully completed and deployed **multiple complex POCs** that are now live in production within enterprise systems.
- Consistently recognized for improving performance metrics and UI experience across platforms.

EDUCATION

Maharshi Dayanand University, Rohtak
Bachelor of Technology, Computer Science and Engineering

2013 - 2017
Haryana
